

Gauging with ClearRoute™2

Complete course

Balfour Beatty

ClearRoute™ 2 is a market-leading software tool for calculating the clearances between railway vehicles and the infrastructure. If you've purchased ClearRoute™ 2, our three-day complete course provides successful delegates with an industry-recognised qualification.

The 'Gauging with ClearRoute™ 2' complete course is ideal for all new ClearRoute™ 2 users.

This course covers ClearRoute™ 2 functionality as well as providing a good introduction to gauging principles and current UK gauging standards.

Course overview

The three-day course is delivered using a mix of explanations and demonstrations combined with a series of exercises allowing delegates plenty of hands-on experience.

Each delegate will undertake a formal assessment and will be presented with a certificate to confirm their competence along with a CLP file to install in ClearRoute™ 2.

At the end of the course delegates are provided with comprehensive course notes to take away for future reference.

There is a maximum class size of four for our ClearRoute™ 2 certification courses to ensure each delegate receives maximum attention from the tutor and has access to the appropriate equipment.

What you will learn

The course covers:

- Infrastructure
- Creating structure profiles using Platform and Sixfoot modules
- Importing ClearRoute™ Classic structure profiles
- Editing profiles saved in local infrastructure databases
- Vehicles
- Absolute gauging
- ClearRoute™ 2 infrastructure and vehicles database
- Using projects in ClearRoute™ 2
- Clearance runs
- Design options

Logistics

- The course starts each day at 9.00am and finishes at 4.30pm
