

Gauging with ClearRoute™2

Conversion course

Balfour Beatty

ClearRoute™ 2 is a market-leading software tool for calculating the clearances between railway vehicles and the infrastructure. If you're moving from ClearRoute™ Classic to ClearRoute™ 2, our two-day conversion course provides successful delegates with an industry-recognised qualification.

The Gauging with ClearRoute™ 2 conversion course is ideal for existing ClearRoute™ Classic users moving over to ClearRoute™ 2.

This course is available to anyone who has previously gained Basic ClearRoute™ and/or Professional ClearRoute™ certification for ClearRoute™ Classic.

Course overview

The two-day conversion course is delivered using a mix of explanations and demonstrations combined with a series of exercises ensuring that delegates gain plenty of hands-on experience.

Each delegate will undertake a formal assessment and will be presented with a certificate to confirm their competence along with a CLP file to install in ClearRoute™ 2.

A maximum class size of four for our ClearRoute™ 2 certification courses ensures each delegate receives maximum attention from the tutor and has access to the appropriate equipment.

What you will learn

- Creating structure profiles using Platform and Sixfoot modules
- Importing ClearRoute™ Classic structure profiles
- Editing profiles saved in local infrastructure databases
- ClearRoute™ 2 infrastructure and vehicles databases
- Using projects in ClearRoute™ 2
- Clearance runs
- Design options

Logistics

- The course starts each day at 9.00am and finishes at 4.30pm
- A buffet lunch is provided
- The course is delivered from our office in Matlock, Derbyshire
- If you require the course to be held at an alternative location please contact us for information and prices

Course costs
